Senate

State of Minnesota

August 6, 1990

Honorable William K. Reilly
Administrator
Environmental Protection Agency
401 M Street
Washington, D.C. 20460

Mr. Reilly:

It is my understanding that the EPA is considering approving a gasoline performance additive called HiTEC 3000. This product has been shown to significantly reduce automobile emissions and subsequent air pollutants.

Since air pollution is a major problem in our state and in our nation, I believe that this additive should be given prompt consideration and approval by your agency.

Thank you in advance for your attention to this matter.

Sincerely,

Duane Benson
Senate Minority Leader
